SUNDAY, OCTOBER 13th

Departure of the participants

The JEDI (Judicial Electronic Data Interchange) Seminar is the final event of two research projects co-financed by the European Commission through the Grotius Civil Programme and the Grotius II Criminal. Representatives of more than 20 European countries plus delegates of international organizations have been invited to write a report on Judicial Electronic Data Interchange (JEDI) in their justice system. The data provided by the reports will be analysed and discussed at this two-day international Seminar.
